

## **Woburn Special Education Parent Advisory Council**

The mission of the Woburn Public School (WPS) Special Education Parent Advisory Council (SEPAC) is to work towards the understanding of, respect for, support, and appropriate education for all children with disabilities in the WPS community.

We offer free workshops, events for families, events for adults, and ways to connect with other parents who are facing struggles and triumphs similar to your own. Our goal is to educate parents and students on their rights so they feel empowered to advocate for their children and themselves.

If you have ANY questions about the special education process:

- How to request an evaluation?
- Who to contact when you have questions about services?
- How to handle a conflict with your child's team?

Or if you just need to ask, "Is this a problem?" we're here to help.

For more information about the Woburn SEPAC, you can:
